SOUTHAMPTON COLONY ACTIVE; ADIRONDACK CROWDS GROW

Fearlessness Shown by Women in Airplane Flights at Southampton-Hospital Benefit Planned

ITH almost a week of uninterrupted fine weather, drooping spirks have reand the customary outdoor been resumed with no bindrance/ There is a great choice of diversion in this popular resort, where even the simple life prevails. Almost enything is at Command, from sea setting to an aerial spin in the planes which are waiting for passengers who can pay a dollar a minute for the flight, and there seem to be plenty

of them, particularly the women, insist on all the stunts that the aviators can perform. Thus far there has been no unfortunate happening, and it must be admitted that and boxes are: it takes some courage to make such

Lawn tennis is, as it always has been, greatly favored in Southampton, and at the Meadow Club grounds for the last fortnight matches have been in daily progress for the cups offered by Mrs. J. Coupes Lord, W. Scott Cameron and the late Henry D. Babcock. Mrs. Lord won her own cup, her final opponent being Mrs. Lawrence McKeever Miller. Mrs. Lord's score was 6-8, 6-2, 6-2.

With few exceptions the men who are fortunate enough to pass the entire week in Southampton devote much of their time to golf, playing at Shin-National Golf Club, where also many women of the summer colony play The week end men take advantage of one or both of these

modernized in regard to locomotion and nowadays a horse drawn vehicle traps and horses were sent here in advance of the occupants of the summer villas, and not so many years ago at that. But now many come here in their motors and one rarely sees an old time turnout.

Mrs. Walter Cutting is an exception to the general rule, as she drives every day in a victoria to a fine pair of

her conveyance to the beach, where she is surrounded by many friends

who pay their respects. Henry E. Coe continues to tool his four in hand and Mr. and Mrs. Richard Newton, Jr., drive in from Water Mill frequently.

With these few exceptions the modern iron horses are preferred. Some of the boys use the buckboard automobiles, or, as some one has styled them, the "sand flivvers." The thing unique in the way of automobiles is the car driven by Robert Potter Breese, a low built, one seat affair that looks at a distance like a huge beetle the Mother Goose tales used to get into with all her children. Whenever Mr. Breese leaves his car at a curb it is immediately surrounded by a curi-
